## CAREER GOALS

*I have been working as a teacher for more than 3 years. My students have ranged from adults who want to improve their jobs, to children who need to pass their school exams.*

*I aspire to be a contributor to wider projects of social and cultural importance beyond the confines of the classroom, where language is a bridge to different ways of connecting with Latin culture and its cultural richness.*

## EXPERIENCE AND PHILOSOPHY

*After graduating, I have had the privilege of teaching students from various backgrounds who share a common interest in acquiring a new language.*

*I take pride in customizing my teaching approach to suit the age and unique requirements of each student. My pedagogy is deeply practical and didactic, focusing on addressing the specific challenges that students may encounter.*

## JOBS AND SHARES LIKE A TEACHER
